### **Forward Looking Statement**

Certain information contained in this website, including any information as to ESI's future financial or operating performance, constitutes "forward-looking statements". All statements, other than statements of historical fact, are forward-looking statements. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will", "schedule" and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by ESI, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to: changes in national and local government legislation, taxation, controls, regulations and political or economic developments in Canada or other countries in which ESI does or may carry on business in the future; business opportunities that may be presented to, or pursued by, ESI; ESI's ability to successfully integrate acquisitions; operating or technical difficulties in connection with mineral exploration activities; the speculative nature of mining exploration and development, including the risks of obtaining necessary licenses and permits; adverse changes in ESI's credit rating; and contests over title to properties, particularly title to undeveloped properties. In addition, there are risks and hazards associated with the business of exploration and development, including environmental hazards, industrial accidents, and unusual or unexpected formations (and the risk of inadequate insurance, or inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can affect ESI's actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, ESI. Readers are cautioned that forward-looking statements are not guarantees of future performance. All of the forward-looking statements contained in this website are qualified by these cautionary statements. ESI expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, events or otherwise.
